**Tehachapi Renewable Transmission Project
Notice of Availability for the
Draft Supplemental Environmental Impact Report/
Environmental Impact Statement**

California SCH #2007081156

To: Readers of the Draft Supplemental Environmental Impact Report/Environmental Impact Statement

From: John Boccio, CPUC, EIR Project Manager
Lorraine Gerchas, USDA Forest Service, EIS Project Manager

Subject: **Notice of Availability**, Draft Supplemental Environmental Impact Report/Environmental Impact Statement for the Tehachapi Renewable Transmission Project

Date: April 11, 2013

The California Public Utilities Commission (CPUC), as Lead Agency under the California Environmental Quality Act, and the U.S. Department of the Agriculture (USDA) Forest Service, as Lead Agency under the National Environmental Policy Act, have prepared a Draft Supplemental Environmental Impact Report/Environmental Impact Statement (Draft SEIR/SEIS) for consideration of Southern California Edison Company's (SCE) Petition for Modification of Decision 09-12-044 on the Tehachapi Renewable Transmission Project (TRTP or Project). The Draft SEIR/SEIS addresses implementation of the Federal Aviation Administration's (FAA) recommendations, including installation of marker balls on 276 transmission line spans, installation of aviation lights on 90 transmission structures, and engineering refinements to reduce the height of 21 structures within Segment 8 between Chino and Mira Loma Substations.

Proposed Modifications to the Project (Modified Project). The Project, as approved by the CPUC and Forest Service¹, includes new and upgraded transmission infrastructure along approximately 173 miles of new and existing right-of-way (ROW) from the Tehachapi Wind Resources Area in southern Kern County south through Los Angeles County and the Angeles National Forest (ANF), and east to the existing Mira Loma Substation in Ontario, San Bernardino County, California. For descriptive purposes, the Project has been separated into eight distinct segments, referred to as Segments 4 through 11.

Upon completion of final engineering for various portions of the Project, SCE identified the structures and catenaries (wire spans) that met the FAA reporting thresholds and submitted Form 7460-1 for each, as required by Mitigation Measure L-2b (*Aircraft flight path and safety provisions and consultations*). In response, the FAA issued determinations recommending the installation of marker balls on certain transmission line spans and aviation lights on certain transmission structures. All determinations from the FAA have been completed. The FAA has recommended installation of marker balls along 276 transmission line spans and installation of aviation lights on 90 transmission structures; SCE has estimated the total number of marker balls required to be approximately 2,248 based on transmission line span lengths. These elements would be installed within Segments 5, 6, 7, 8, 10, and 11. (Segment

¹ The CPUC issued a construction stay for Segment 8A within the City of Chino Hills [Decision 11-11-020 (November 10, 2012), as modified by Decision 12-03-050 (March 22, 2012)], which per the July 12, 2012, ruling of the Assigned Commissioner will continue until the CPUC makes a final determination on undergrounding options; Segment 8A undergrounding options will undergo separate environmental review and are not the subject of the SEIR/SEIS.

8A within the City of Chino Hills is stayed.) In addition, based on FAA concerns that certain structures near the Chino Airport would interfere with the instrument approach procedure, SCE proposes engineering refinements in Segment 8 between Chino and Mira Loma Substations to lower 21 structures through a combination of shorter tubular steel poles and specially designed dead-end lattice steel towers, which would result in changing the previously approved structure type for seven (7) structures.

Impacts of the Modified Project. The Modified Project would increase the level of significant, adverse impact on landscape character and visual quality in the ANF (Segments 6 and 11) and in the southern portions of the TRTP alignment (Segments 7 and 8), as well as contributing to the degradation of scenic viewsheds. Additionally, aviation lighting would create new sources of nighttime lighting that would affect nighttime views resulting in the Modified Project's only new significant and unavoidable impact. However, the proposed modifications would increase public safety by making hazardous structures (transmission structures and wire spans) more visible to pilots, and they are necessary to comply with the recommendations of the FAA.

Availability of Draft SEIR/SEIS. The Draft SEIR/SEIS will be available for review at several area libraries and other community locations (see list of repositories on the Project website identified below). Copies of the Draft SEIR/SEIS on CD may be requested by e-mail at: trtpsuppeir-eis@aspeneg.com.

Sources of Project Information. For additional information or to read the Draft SEIR/SEIS online, please check the Project website at:

ftp://ftp.cpuc.ca.gov/gopher-data/enviro/tehachapi_renewables/TRTP.htm

Public Review of the Draft SEIR/SEIS begins on April 20, 2013 and ends on June 3, 2013. Written comments on the Draft SEIR/SEIS must be postmarked or received by e-mail no later than June 3, 2013. Please include your name and address with your comments. Comments on the Draft SEIR/SEIS will be limited only to the topics included in the document. The Final SEIR/SEIS will present responses to all substantive comments submitted on the Draft SEIR/SEIS.

For questions on the Project, contact: John Boccio, CPUC TRTP Project Manager, at (415) 703-2641, or Lorraine Gerchas, Forest Service TRTP Project Manager, at (626) 574-5281.

It is important that reviewers provide their comments at such times and in such a way that they are useful to the Agency's preparation of the SEIR/SEIS. Therefore, comments should be provided prior to the close of the comment period and should clearly articulate the reviewer's concerns and contentions. The submission of timely and specific comments can affect a reviewer's ability to participate in subsequent administrative review or judicial review. Comments received in response to this solicitation, including names and addresses of those who comment, will be part of the public record for this proposed action. Comments submitted anonymously will be accepted and considered; however, anonymous comments will not provide the Agencies with the ability to provide the respondent with subsequent environmental documents.

Written comments on the Draft SEIR/SEIS should be sent to:

Tehachapi Renewable Transmission Project

Notice of Availability for the Draft Supplemental Environmental Impact Report/Environmental Impact Statement

The California Public Utilities Commission and the USDA Forest Service have prepared a Draft Supplemental Environmental Impact Report/Environmental Impact Statement (SEIR/SEIS) for Southern California Edison's (SCE) Tehachapi Renewable Transmission Project (TRTP) to assess the impacts associated with the Federal Aviation Administration's (FAA) recommendations to add marker balls to 276 transmission line spans and aviation lights to 90 structures within Segments 5, 6, 7, 8, 10, and 11 (Note: The CPUC has stayed construction of the overhead transmission line within the City of Chino Hills in Segment 8A; Segment 8A undergrounding options are not the subject of the SEIR/SEIS). In addition, the Draft SEIR/SEIS assesses engineering refinements to reduce the height of 21 transmission structures in Segment 8 between Chino Substation and Mira Loma Substation.

The Modified Project would increase the level of significant, adverse impact on landscape character and visual quality in the Angeles National Forest (Segments 6 and 11) and in the southern portions of the TRTP alignment (Segments 7 and 8), as well as contributing to the degradation of scenic viewsheds. Additionally, aviation lighting would create new sources of nighttime lighting that would affect nighttime views resulting in the Modified Project's only new significant and unavoidable impact. However, the proposed modifications would increase public safety by making hazardous structures (transmission structures and wire spans) more visible to pilots, and they are necessary to comply with the recommendations of the FAA.

Public Review of the Draft SEIR/SEIS begins on April 20, 2013 and ends on June 3, 2013. Comments on the Draft SEIR/SEIS must be postmarked or received by e-mail no later than June 3, 2013. Please include your name and address. Comments on the Draft SEIR/SEIS will be limited only to the topics included in the document. Written comments should be sent to: John Boccio/Lorraine Gerchas, CPUC/USDA Forest Service c/o Aspen Environmental Group, 5020 Chesebro Rd., Suite 200, Agoura Hills, CA 91301 or trtpsuppeir-eis@aspeneg.com. The Draft SEIR/SEIS is available on the Project website and at several area libraries, as listed on the Project website: ftp://ftp.cpuc.ca.gov/gopher-data/enviro/tehachapi_renewables/TRTP.htm. **For questions about this Project, please contact: John Boccio, CPUC TRTP Project Manager, at (415) 703-2641, or Lorraine Gerchas, Forest Service TRTP Project Manager, at (626) 574-5281.**

Tehachapi Renewable Transmission Project

Notice of Availability for the Draft Supplemental Environmental Impact Report/Environmental Impact Statement

The California Public Utilities Commission and the USDA Forest Service have prepared a Draft Supplemental Environmental Impact Report/Environmental Impact Statement (SEIR/SEIS) for Southern California Edison's (SCE) Tehachapi Renewable Transmission Project (TRTP) to assess the impacts associated with the Federal Aviation Administration's (FAA) recommendations to add marker balls to 276 transmission line spans and aviation lights to 90 structures within Segments 5, 6, 7, 8, 10, and 11 (Note: The CPUC has stayed construction of the overhead transmission line within the City of Chino Hills in Segment 8A; Segment 8A undergrounding options are not the subject of the SEIR/SEIS). In addition, the Draft SEIR/SEIS assesses engineering refinements to reduce the height of 21 transmission structures in Segment 8 between Chino Substation and Mira Loma Substation.

The Modified Project would increase the level of significant, adverse impact on landscape character and visual quality in the Angeles National Forest (Segments 6 and 11) and in the southern portions of the TRTP alignment (Segments 7 and 8), as well as contributing to the degradation of scenic viewsheds. Additionally, aviation lighting would create new sources of nighttime lighting that would affect nighttime views resulting in the Modified Project's only new significant and unavoidable impact. However, the proposed modifications would increase public safety by making hazardous structures (transmission structures and wire spans) more visible to pilots, and they are necessary to comply with the recommendations of the FAA.

Public Review of the Draft SEIR/SEIS begins on April 20, 2013 and ends on June 3, 2013. Comments on the Draft SEIR/SEIS must be postmarked or received by e-mail no later than June 3, 2013. Please include your name and address. Comments on the Draft SEIR/SEIS will be limited only to the topics included in the document. Important Notice:

**NOTICE OF AVAILABILITY FOR THE
TEHACHAPI RENEWABLE TRANSMISSION
PROJECT DRAFT SUPPLEMENTAL EIR/EIS**

**ADDITIONAL NOTIFICATION FOR THE DRAFT
SUPPLEMENTAL ENVIRONMENTAL IMPACT REPORT/
ENVIRONMENTAL IMPACT STATEMENT**

The U.S. Department of Agriculture, Forest Service and the California Public Utilities Commission have prepared a Draft Supplemental Environmental Impact Report/Environmental Impact Statement (SEIR/SEIS) for the Tehachapi Renewable Transmission Project. The SEIR/SEIS assesses the impacts associated with the Federal Aviation Administration's recommendations to add marker balls to 276 transmission line spans and aviation lights to 90 structures within Segments 5, 6, 7, 8, 10, and 11. In addition, the Draft SEIR/SEIS assesses engineering refinements to reduce the height of 21 transmission structures in Segment 8 between Chino Substation and Mira Loma Substation.

The SEIR/SEIS is available on the CPUC's project website, with hard copies at local libraries, as listed on the Project website: ftp://ftp.cpuc.ca.gov/gopher-data/envIRON/tehachapi_renewables/TRTP.htm.

Public review of the SDEIR/SEIS started on April 20, 2013, and ends on June 3, 2013. The public is invited to submit written comments specific to the analysis provided in the SEIR/SEIS. Comments received in response to this solicitation, including names and addresses of those who comment, will be part of the public record for this proposed action. ***This project is subject to comment pursuant to 36 CFR 218, Subparts A and B. As such, only those who submit timely project-specific written comments during a public comment period are eligible to file an objection. Individuals or representatives of an entity submitting comments must sign the comments or verify identity upon request.***

Written comments on the SEIR/SEIS should be sent to: John Boccio/Lorraine Gerchas, CPUC/USDA Forest Service c/o Aspen Environmental Group, 5020 Chesebro Rd., Suite 200, Agoura Hills, CA 91301 or email: trtpsuppeir-eis@aspeneg.com.

Federal Register Notice of Availability

April 19, 2013

23558

Federal Register / Vol. 78, No. 76 / Friday, April 19, 2013 / Notices

maggot in turnip and rutabaga production. The applicant indicates that fipronil has been shown to provide excellent crop safety, and overall provides better control than the registered alternative.

The Applicant proposes to make no more than one application at 4.16 fluid oz. of product per acre, to a maximum of 600 acres of rutabagas and turnips, for use of up to a potential maximum of 19.5 gallons of product. Applications would potentially be made from April 1 through September 30, 2013, in the Oregon counties of Clackamas, Marion, Multnomah, and Umatilla.

This notice does not constitute a decision by EPA on the application itself. The regulations governing FIFRA section 18 require publication of a notice of receipt of an application for a specific exemption proposing a use which is supported by the IR-4 program and has been requested in 5 or more previous years, and a petition for tolerance has not yet been submitted to the Agency. The notice provides an opportunity for public comment on the application. The Agency will review and consider all comments received during the comment period in determining whether to issue the specific exemption requested by the Oregon Department of Agriculture.

OPPORTUNITY TO COMMENT
Tehachapi Renewable Transmission Project
Angeles National Forest

The Forest Service is seeking comments on a Draft Supplemental environmental document for the Tehachapi Renewable Transmission Project. The proposal is to implement Federal Aviation Administration (FAA) recommendations on an already approved transmission line. On National Forest lands, marker trails would be added to 111 wire spans, and aviation lights to 3 towers. This project occurs in two utility corridors south of Acton, CA. One goes southwest toward the Gould Substation off of Highway 2 in La Canada; the other southeast toward Duarte and the Rio Hondo Substation. The document is available online at http://ftp.epuc.ca.gov/gopher-data/enviro/teahachapi_renewables/TRTP.htm

This project is subject to comment pursuant to 36 CFR 218, Subparts A and B. Only those who submit timely project-specific written comments during a public comment period are eligible to file an objection. Individuals or representatives of an entity submitting comments must sign the comments or verify identity upon request. The opportunity to comment ends on June 3, 2013, 45 days following publication of a Notice of Availability in the Federal Register, which occurred on April 19, 2013. The Responsible Official is Forest Supervisor Tom Contreras, 626-574-1613, 701 North Santa Anita Avenue, Arcadia, CA, 91006. Comments may be hand delivered to this address during business hours (M-F 8:00am to 4:30pm); or mailed to Aspen Environmental Group, 5020 Chesebro Road, Suite 200, Agoura Hills, CA 91301. Electronic comments, in .doc, pdf, rtf, or .txt formats may be e-mailed to trtpespeir-cis@aspeneg.com with Subject: TRTP. Names of commenters will be part of the public record subject to the Freedom of Information Act. For additional information, or to request hardcopies of the documents contact Lorraine Gerchak at (626) 574-3281 or lmgerchak@fs.fed.us.

Notice of Availability
for the Tehachapi Renewable Transmission Project
Draft Supplemental Environmental Impact Report /
Environmental Impact Statement

The California Public Utilities Commission (CPUC) and the USDA Forest Service (Forest Service) have prepared a Draft Supplemental Environmental Impact Report/Environmental Impact Statement (SEIR/SEIS) for Southern California Edison's (SCE) Tehachapi Renewable Transmission Project (TRTP). The Draft SEIR/SEIS assesses the impacts associated with the Federal Aviation Administration's (FAA) recommendations to add marker balls to 276 transmission line (T/L) spans and aviation lights to 90 structures within Segments 5, 6, 7, 8, 10, and 11 (Note: The CPUC has stayed construction of the overhead transmission line within the City of Chino Hills in Segment 8A; Segment 8A undergrounding options are not the subject of the SEIR/SEIS). In addition, the Draft SEIR/SEIS assesses engineering refinements to reduce the height of 21 transmission structures in Segment 8 between Chino and Mira Loma Substations.

Impacts of the Modified Project: The Modified Project would increase the level of significant, adverse impact on landscape character and visual quality in the Angeles National Forest (Segments 6 and 11) and in the southern portions of the TRTP alignment (Segments 7 and 8), as well as contributing to the degradation of scenic viewsheds. Additionally, aviation lighting would create new sources of nighttime lighting that would affect nighttime views resulting in the Modified Project's only new significant and unavoidable impact. However, the proposed modifications would increase public safety by making hazardous structures (transmission structures and wire spans) more visible to pilots, and they are necessary to comply with the recommendations of the FAA.

Availability of Draft SEIR/SEIS. Hard copies of the Draft SEIR/SEIS are available for review at several area libraries and other community locations (see list of document repositories provided on the Project website), and electronically on the Project website:

ftp://ftp.cpuc.ca.gov/gopher-data/enviro/tehachapi_renewables/TRTP.htm

Copies of the Draft SEIR/SEIS on CD may be requested by e-mail at trtpsappeir-eis@aspeneg.com.

Public Review of the Draft SEIR/SEIS begins on April 20, 2013 and ends on June 3, 2013. Written comments on the Draft SEIR/SEIS must be postmarked or received by e-mail no later than June 3, 2013. Please be sure to include your name and address. Comments on the Draft SEIR/SEIS shall be limited only to the topics included in the document. The Final SEIR/SEIS will present responses to all substantive comments submitted on the Draft SEIR/SEIS.

Comments received in response to this solicitation, including names and addresses of those who comment, will be part of the public record for this proposed action. Comments submitted anonymously will be accepted and considered; however, anonymous comments will not provide the Agencies with the ability to provide the respondent with subsequent environmental documents.

Written comments on the Draft SEIR/SEIS should be sent to: John Boccio/Lorraine Gerchas, CPUC/USDA Forest Service, c/o Aspen Environmental Group, 5020 Chesebro Road, Suite 200, Agoura Hills, CA 91301 or E-mail: trtpsappeir-eis@aspeneg.com.

For questions about this Project, please contact: John Boccio, CPUC TRTP Project Manager, at (415) 703-2641, or Lorraine Gerchas, Forest Service TRTP Project Manager, at (626) 574-5281.

**Notice of Availability
for the Tehachapi Renewable
Transmission Project
Draft Supplemental Environmental
Impact Report /
Environmental Impact Statement**

The California Public Utilities Commission (CPUC) and the USDA Forest Service (Forest Service) have prepared a Draft Supplemental Environmental Impact Report/Environmental Impact Statement (SEIR/SEIS) for Southern California Edison's (SCE) Tehachapi Renewable Transmission Project (TRTP). The Draft SEIR/SEIS assesses the impacts associated with the Federal Aviation Administration's (FAA) recommendations to add marker balls to 276 transmission line (T/L) spans and aviation lights to 90 structures within Segments 5, 6, 7, 8, 10, and 11 (Note: The CPUC has stayed construction of the overhead transmission line within the City of Chino Hills in Segment 8A; Segment 8A undergrounding options are not the subject of the SEIR/SEIS). In addition, the Draft SEIR/SEIS assesses engineering refinements to reduce the height of 21 transmission structures in Segment 8 between Chino and Mira Loma Substations.

Impacts of the Modified Project: The Modified Project would increase the level of significant, adverse impact on landscape character and visual quality in the Angeles National Forest (Segments 6 and 11) and in the southern portions of the TRTP alignment (Segments 7 and 8), as well as contributing to the degradation of scenic viewsheds. Additionally, aviation lighting would create new sources of nighttime lighting that would affect nighttime views resulting in the Modified Project's only new significant and unavoidable impact. However, the proposed modifications would increase public safety by making hazardous structures (transmission structures and wire spans) more visible to pilots, and they are necessary to comply with the recommendations of the FAA.

Availability of Draft SEIR/SEIS. Hard copies of the Draft SEIR/SEIS are available for review at several area libraries and other community locations (see list of document repositories provided on the Project website), and electronically on the Project website:

http://ftp.cpuc.ca.gov/gopher-data/enviro/tehachapi_renewables/TRTP.htm

Copies of the Draft SEIR/SEIS on CD may be requested by e-mail at trtpsuppeir-eis@aspeneg.com.

Public Review of the Draft SEIR/SEIS begins on April 20, 2013 and ends on June 3, 2013. Written comments on the Draft SEIR/SEIS must be postmarked or received by e-mail no later than June 3, 2013. Please be sure to include your name and address. Comments on the Draft SEIR/SEIS shall be limited only to the topics included in the document. The Final SEIR/SEIS will present responses to all substantive comments submitted on the Draft SEIR/SEIS.

Comments received in response to this solicitation, including names and addresses of those who comment, will be part of the public record for this proposed action. Comments submitted anonymously will be accepted and considered; however, anonymous comments will not provide the Agencies with the ability to provide the respondent with subsequent environmental documents.

Written comments on the Draft SEIR/SEIS should be sent to: John Boccio/Lorraine Gerchias, CPUC/USDA Forest Service, c/o Aspen Environmental Group, 5020 Chesebro Road, Suite 200, Agoura Hills, CA 91301 or E-mail: trtpsuppeir-eis@aspeneg.com.

For questions about this Project, please contact: John Boccio, CPUC TRTP Project Manager, at (415) 703-2641, or Lorraine Gerchias, Forest Service TRTP Project Manager, at (626) 574-5281.

 **Notice of Availability**
for the Tehachapi Renewable
Transmission Project
Draft Supplemental Environmental
Impact Report /
Environmental Impact Statement

 **U.S. Forest Service**

The California Public Utilities Commission (CPUC) and the USDA Forest Service (Forest Service) have prepared a Draft Supplemental Environmental Impact Report/Environmental Impact Statement (SEIR/SEIS) for Southern California Edison's (SCE) Tehachapi Renewable Transmission Project (TRTP). The Draft SEIR/SEIS assesses the impacts associated with the Federal Aviation Administration's (FAA) recommendations to add marker bulbs to 276 transmission line (TL) spans and aviation lights to 50 structures within Segments 5, 6, 7, 8, 10, and 11 (Note: The CPUC has stayed construction of the overhead transmission line within the City of Chino Hills in Segment 8A. Segment 8A undergrounding options are not the subject of the SEIR/SEIS). In addition, the Draft SEIR/SEIS assesses engineering refinements to reduce the height of 21 transmission structures in Segment 8 between Chino and Mira Loma Substations.

Impacts of the Modified Project: The Modified Project would increase the level of significant, adverse impact on landscape character and visual quality in the Angeles National Forest (Segments 6 and 11) and in the southern portions of the TRTP alignment (Segments 7 and 8), as well as contributing to the degradation of scenic viewsheds. Additionally, aviation lighting would create new sources of nighttime lighting that would affect nighttime views resulting in the Modified Project's only new significant and unavoidable impact. However, the proposed modifications would increase public safety by making hazardous structures (transmission structures and wire spans) more visible to pilots, and they are necessary to comply with the recommendations of the FAA.

Availability of Draft SEIR/SEIS: Hard copies of the Draft SEIR/SEIS are available for review at several area libraries and other community locations (see list of document repositories provided on the Project website), and electronically on the Project website:
http://ftp.cpuc.ca.gov/gopher-data/enviro/tehachapi_renewables/TRTP.htm

Copies of the Draft SEIR/SEIS on CD may be requested by e-mail at trtpsupp-eis@aspeneg.com.

Public Review of the Draft SEIR/SEIS begins on April 20, 2013 and ends on June 3, 2013. Written comments on the Draft SEIR/SEIS must be postmarked or received by e-mail no later than June 3, 2013. Please be sure to include your name and address. Comments on the Draft SEIR/SEIS shall be limited only to the topics included in the document. The Final SEIR/SEIS will present responses to all substantive comments submitted on the Draft SEIR/SEIS.

Comments received in response to this solicitation, including names and addresses of those who comment, will be part of the public record for this proposed action. Comments submitted anonymously will be accepted and considered; however, anonymous comments will not provide the Agencies with the ability to provide the respondent with subsequent environmental documents.

Written comments on the Draft SEIR/SEIS should be sent to: John Boccia/Lorraine Gerchak, CPUC/USDA Forest Service, c/o Aspen Environmental Group, 5020 Chesebro Road, Suite 200, Agoura Hills, CA 91301 or E-mail: trtpsupp-eis@aspeneg.com.

For questions about this Project, please contact: John Boccia, CPUC TRTP Project Manager, at (415) 703-2641, or Lorraine Gerchak, Forest Service TRTP Project Manager, at (626) 574-5281.

"The only Public Notice which is justifiable from the standpoint of true economy and the public interest, is that which reaches those who are affected by it"

이용 공고
테하차피 재생가능한 트랜스미션 프로젝트
추가 환경 영향 보고서 /
환경 영향 진술서 초안

캘리포니아 공익재 사업 위원회(California Public Utilities Commission, 이하 CPUC)와 USDA 산림청 (Forest Service)은 남부 캘리포니아 에 디스사(SCE)가 제의한 테하차피 재생가능한 트랜스미션 프로젝트 (Tehachapi Renewable Transmission Project, 이하 TRIP)를 위한 추가 환경 영향 보고서/환경 영향 진술서(이하 SEIR/SEIS) 초안을 작성했습니다. SEIR/SEIS 초안은 이연방항공국(Federal Aviation Administration, FAA)의 권고안인 276 트랜스미션 라인 (T/L) 스펙에 따라 설치 및 5, 6, 7, 8, 10 및 11 구간 내의 90개 구조물에 항공 등화 추가와 관련된 환경 영향을 평가하고 있습니다. (주: CPUC는 8A 구간 내의 치노 힐시 내에 있는 지상 트랜스미션 라인 건설중; 8A 구간 지중화 옵션은 SEIR/SEIS 대상 아님). 또한 SEIR/SEIS 초안은 치노와 미라 노마 변전소 사이의 8구간에 있는 21개의 송전 구조물 높이 감소를 위한 엔지니어링 개선사항을 평가하고 있습니다.

수정 프로젝트의 영향: 수정 프로젝트는 앤젤레스 국립 산림 지구 (Angeles National Forest) (6 및 11구간) 및 TRTP 남부 지역 일부 (7 및 8 구간)의 경관적 특징 및 시각적 품질에 중요한 부정적 영향을 증가시킬 뿐만 아니라 경관 조망을 저해합니다. 또한 항공 등화는 야간 경관에 영향을 주는 새로운 야간 조명원을 생성하여 수정 프로젝트에 상감하여 피할 수 없는 새로운 영향을 추가하게 됩니다. 그러나 제안된 수정안은 위험한 구조물들 (트랜스미션 구조물 및 와이어 스펙)을 조종사들이 더 잘 볼 수 있도록 하여 공공 안전을 증대시키며 FAA의 권고안은 준수해야 합니다.

SEIR/SEIS 초안 이용, SEIR/SEIS 초안의 인쇄본은 여러 지역 도서관 및 기타 커뮤니티 기관 (프로젝트 웹사이트에 제공된 문서 보관 장소 목록 참조)에서 검토할 수 있으며 프로젝트 웹사이트:

ftp://ftp.cpuc.ca.gov/gopher-data/enviro/tehachapi_renewables/TRTP.htm에서는 전자 문서로 이용할 수 있습니다.

SEIR/SEIS 초안 CD는 이메일로 (trtpsuppeir-eis@aspenerg.com) 요청할 수 있습니다.

SEIR/SEIS 초안에 대한 공개 검토는 2013년 4월 20일에 시작하여 2013년 6월 3일에 종료됩니다. SEIR/SEIS 초안에 대한 서면 의견은 2013년 6월 3일까지 우체국 소인이 찍혀거나 이메일로 접수되어야 합니다. 귀하의 이름과 주소를 반드시 기재하십시오. SEIR/SEIS 초안에 대한 의견은 문서에 포함된 주제로 제한됩니다. 최종 SEIR/SEIS는 SEIR/SEIS 초안에 대해 제출된 모든 실질적 의견에 대한 답변을 제시하게 될 것입니다.

의견을 보내주신 분의 성명 및 주소와 함께 보내주신 의견은 본 조치에 대한 공개 기록에 포함됩니다. 익명으로 제출된 의견은 접수 및 고려될 것이나 이후의 환경 문서에 대해서는 답변을 제공할 수 없게 됩니다.

SEIR/SEIS 초안에 대한 서면 의견은 다음 주소로 보내주시고: John Boccio/Lorraine Gerchas, CPUC/USDA Forest Service, c/o Aspen Environmental Group, 5020 Chesebro Road, Suite 200, Agoura Hills, CA 91301 또는 이메일: trtpsuppeir-eis@aspenerg.com.

본 프로젝트에 대한 문의사항은: CPUC TRTP 프로젝트 매니저 John Boccio에게 (415) 703-2641번, 또는 Forest Service TRTP 프로젝트 매니저 Lorraine Gerchas에게 (626) 574-5281번으로 전화하여 문의하십시오.

	Notificación de Disponibilidad Proyecto Tehachapi para la Transmisión de Energía Renovable Borrador Complementario del Informe de Impacto Ambiental/ Declaración de Impacto Ambiental	
<p>La Comisión de Empresas de Servicios Públicos de California (CPUC, por sus siglas en inglés) y el Servicio Forestal del Departamento de Agricultura de los Estados Unidos (USDA, por sus siglas en inglés) han preparado un Borrador Complementario del Informe de Impacto Ambiental (SEIR, por sus siglas en inglés)/Declaración de Impacto Ambiental (SEIS, por sus siglas en inglés) para el Proyecto Tehachapi para la Transmisión de Energía Renovable (TRTP, por sus siglas en inglés) de Southern California Edison (SCE). El Borrador de SEIR/SEIS evalúa los impactos relacionados con las recomendaciones de la Administración Federal de Aviación (FAA, por sus siglas en inglés) de agregar balizas de marcación a 276 tendidos de líneas de transmisión (T/L) y luces indicadoras para la aeronavegación a 90 estructuras ubicadas en los Tramos 5, 6, 7, 8, 10 y 11 (Importante: La CPUC ha suspendido temporalmente la construcción de la línea de transmisión aérea dentro de la Ciudad de Chino Hills en el Tramo 8. Las opciones de tendido subterráneo para el Tramo 8A no se analizan en estos SEIR/SEIS). Además, el Borrador de SEIR/SEIS evalúa mejoras de ingeniería para reducir la altura de las 21 estructuras de transmisión en el Tramo 8 entre las Subestaciones de Chino y Mira Loma.</p> <p>Impactos del Proyecto modificado: El Proyecto modificado aumentaría el nivel de impacto negativo significativo con respecto al aspecto del paisaje y la calidad visual en el Bosque Nacional Angeles/Angeles National Forest (Tramos 6 y 11) y en las secciones del sur del trazado del TRTP (Tramos 7 y 8), así como también contribuiría a la degradación de las cuencas visuales paisajísticas. Además, la iluminación para la aeronavegación crearía fuentes nuevas de iluminación de noche que afectarían las vistas nocturnas, lo que constituiría el único impacto nuevo importante e inevitable del Proyecto Modificado. Sin embargo, las modificaciones propuestas aumentarían la seguridad pública al otorgar una mayor visibilidad de las estructuras peligrosas (estructuras de transmisión y tendidos de cableado) para los pilotos y son necesarias para cumplir con las recomendaciones de la FAA.</p> <p>Disponibilidad de Borradores de SEIR/SEIS. Varias bibliotecas del área y otros centros comunitarios ofrecen copias impresas del Borrador de EIR/SEIS para su consulta (vea la lista de sitios para la consulta de documentos que se publica en el sitio en Internet del Proyecto). También se pueden obtener copias electrónicas en dicho sitio:</p> <p>http://ftp.cpuc.ca.gov/gopher-data/environ/tehachapi_renewables/TRTP.htm</p> <p>Se pueden solicitar copias en CD del Borrador de SEIR/SEIS escribiendo a la dirección de correo electrónico trtpsuppeir-eis@aspeneg.com.</p> <p>La Revisión Pública del Borrador de SEIR/SEIS comienza el 20 de abril de 2013 y finaliza el 3 de junio de 2013. Los comentarios escritos sobre el Borrador de SEIR/SEIS deben poseer matasello con fecha de hasta el 3 de junio de 2013 o recibirse vía correo electrónico hasta esa fecha. Recuerde incluir su nombre y dirección. Los comentarios sobre el Borrador de SEIR/SEIS deberán limitarse únicamente a los temas incluidos en el documento. El SEIR/SEIS Final contendrá las respuestas a todos los comentarios significativos presentados en relación con el Borrador de SEIR/SEIS.</p> <p>Los comentarios recibidos en respuesta a esta solicitud, incluso los nombres y las direcciones de aquellos que los presentaron, formarán parte del registro público de esta acción propuesta. Los comentarios anónimos se aceptarán y considerarán; no obstante, las Agencias no podrán brindar a las personas que los enviaron los documentos ambientales posteriores.</p> <p>Los comentarios por escrito sobre el Borrador de SEIR/SEIS deben dirigirse a: John Boccio/ Lorraine Gerchas, CPUC/USDA Forest Service, c/o Aspen Environmental Group, 5020 Chesebro Road, Suite 200, Agoura Hills, CA 91301 o a la dirección de correo electrónico: trtpsuppeir-eis@aspeneg.com.</p> <p>Para formular preguntas sobre este Proyecto, sírvase comunicarse con: John Boccio, Gerente de Proyecto de la CPUC para el TRTP, al (415) 703-2641, o con Lorraine Gerchas, Gerente de Proyecto del Servicio Forestal para el TRTP, al (626) 574-5281.</p>

Notice of Availability
for the Tehachapi Renewable Transmission Project
Draft Supplemental Environmental Impact Report /
Environmental Impact Statement

The California Public Utilities Commission (CPUC) and the USDA Forest Service (Forest Service) have prepared a Draft Supplemental Environmental Impact Report/Environmental Impact Statement (SEIR/SEIS) for Southern California Edison's (SCE) Tehachapi Renewable Transmission Project (TRTP). The Draft SEIR/SEIS assesses the impacts associated with the Federal Aviation Administration's (FAA) recommendations to add marker balls to 276 transmission line (T/L) spans and aviation lights to 90 structures within Segments 5, 6, 7, 8, 10, and 11 (Note: The CPUC has stayed construction of the overhead transmission line within the City of Chino Hills in Segment 8A; Segment 8A undergrounding options are not the subject of the SEIR/SEIS). In addition, the Draft SEIR/SEIS assesses engineering refinements to reduce the height of 21 transmission structures in Segment 8 between Chino and Mira Loma Substations.

Impacts of the Modified Project: The Modified Project would increase the level of significant, adverse impact on landscape character and visual quality in the Angeles National Forest (Segments 6 and 11) and in the southern portions of the TRTP alignment (Segments 7 and 8), as well as contributing to the degradation of scenic viewsheds. Additionally, aviation lighting would create new sources of nighttime lighting that would affect nighttime views resulting in the Modified Project's only new significant and unavoidable impact. However, the proposed modifications would increase public safety by making hazardous structures (transmission structures and wire spans) more visible to pilots, and they are necessary to comply with the recommendations of the FAA.

Availability of Draft SEIR/SEIS. Hard copies of the Draft SEIR/SEIS are available for review at several area libraries and other community locations (see list of document repositories provided on the Project website), and electronically on the Project website:

ftp://ftp.cpuc.ca.gov/gopher-data/enviro/tehachapi_renewables/TRTP.htm

Copies of the Draft SEIR/SEIS on CD may be requested by e-mail at trtpsuppeir-eis@aspeneg.com.

Public Review of the Draft SEIR/SEIS begins on April 20, 2013 and ends on June 3, 2013. Written comments on the Draft SEIR/SEIS must be postmarked or received by e-mail no later than June 3, 2013. Please be sure to include your name and address. Comments on the Draft SEIR/SEIS shall be limited only to the topics included in the document. The Final SEIR/SEIS will present responses to all substantive comments submitted on the Draft SEIR/SEIS.

Comments received in response to this solicitation, including names and addresses of those who comment, will be part of the public record for this proposed action. Comments submitted anonymously will be accepted and considered; however, anonymous comments will not provide the Agencies with the ability to provide the respondent with subsequent environmental documents.

Written comments on the Draft SEIR/SEIS should be sent to: John Boccio/Lorraine Gerchias, CPUC/USDA Forest Service, c/o Aspen Environmental Group, 5020 Chesebro Road, Suite 200, Agoura Hills, CA 91301 or E-mail: trtpsuppeir-eis@aspeneg.com.

For questions about this Project, please contact: John Boccio, CPUC TRTP Project Manager, at (415) 703-2641, or Lorraine Gerchias, Forest Service TRTP Project Manager, at (626) 574-5281.

PROOF OF PUBLICATION (2015.5 C.C.P.)

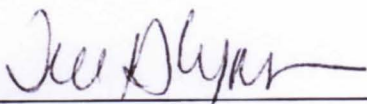

STATE OF CALIFORNIA County of Los Angeles

I am a citizen of the United States, and a resident of the county aforesaid; I am over the age of eighteen years, and not a party to or interested in the above-entitled matter. I am the principal clerk of the printer of WHITTIER DAILY NEWS, a newspaper of general circulation which has been adjudicated as a newspaper of general circulation by the Superior Court of the County of Los Angeles, State of California, on the date of October 10, 1960, Case Number 369393. The notice, of which the annexed is a true printed copy, has been published in each regular and entire issue of said newspaper and not in any supplement thereof on the following dates, to wit:

4/23/2013

I declare under the penalty of perjury that the foregoing is true and correct.

Executed at West Covina, LA Co. California
On this 23th day of April, 2013.

	Notice of Availability for the Tehachapi Renewable Transmission Project Draft Supplemental Environmental Impact Report / Environmental Impact Statement	
<p>The California Public Utilities Commission (CPUC) and the USDA Forest Service (Forest Service) have prepared a Draft Supplemental Environmental Impact Report/Environmental Impact Statement (SEIR/SEIS) for Southern California Edison's (SCE) Tehachapi Renewable Transmission Project (TRTP). The Draft SEIR/SEIS assesses the impacts associated with the Federal Aviation Administration's (FAA) recommendations to add marker balls to 276 transmission line (T/L) spans and aviation lights to 90 structures within Segments 5, 6, 7, 8, 10, and 11 (Note: The CPUC has stayed construction of the overhead transmission line within the City of Chino Hills in Segment 8A; Segment 8A undergrounding options are not the subject of the SEIR/SEIS). In addition, the Draft SEIR/SEIS assesses engineering refinements to reduce the height of 21 transmission structures in Segment 8 between Chino and Mira Loma Substations.</p> <p>Impacts of the Modified Project: The Modified Project would increase the level of significant, adverse impact on landscape character and visual quality in the Angeles National Forest (Segments 6 and 11) and in the southern portions of the TRTP alignment (Segments 7 and 8), as well as contributing to the degradation of scenic viewsheds. Additionally, aviation lighting would create new sources of nighttime lighting that would affect nighttime views resulting in the Modified Project's only new significant and unavoidable impact. However, the proposed modifications would increase public safety by making hazardous structures (transmission structures and wire spans) more visible to pilots, and they are necessary to comply with the recommendations of the FAA.</p> <p>Availability of Draft SEIR/SEIS. Hard copies of the Draft SEIR/SEIS are available for review at several area libraries and other community locations (see list of document repositories provided on the Project website), and electronically on the Project website: http://ftp.cpuc.ca.gov/gopher-data/enviro/tehachapi_renewables/TRTP.htm</p> <p>Copies of the Draft SEIR/SEIS on CD may be requested by e-mail at trtpsuppeir-eis@aspeneg.com.</p> <p>Public Review of the Draft SEIR/SEIS begins on April 20, 2013 and ends on June 3, 2013. Written comments on the Draft SEIR/SEIS must be postmarked or received by e-mail no later than June 3, 2013. Please be sure to include your name and address. Comments on the Draft SEIR/SEIS shall be limited only to the topics included in the document. The Final SEIR/SEIS will present responses to all substantive comments submitted on the Draft SEIR/SEIS.</p> <p>Comments received in response to this solicitation, including names and addresses of those who comment, will be part of the public record for this proposed action. Comments submitted anonymously will be accepted and considered; however, anonymous comments will not provide the Agencies with the ability to provide the respondent with subsequent environmental documents.</p> <p>Written comments on the Draft SEIR/SEIS should be sent to: John Boccio/Lorraine Gerchas, CPUC/USDA Forest Service, c/o Aspen Environmental Group, 5020 Chesebro Road, Suite 200, Agoura Hills, CA 91301 or E-mail: trtpsuppeir-eis@aspeneg.com.</p> <p>For questions about this Project, please contact: John Boccio, CPUC TRTP Project Manager, at (415) 703-2641, or Lorraine Gerchas, Forest Service TRTP Project Manager, at (626) 574-5281. Publish: April 23, 2013 Whittier Daily News Ad #341436</p>

公開審閱通知

Tehachapi 再生能源源輸送專案

補充環境影響報告 /

環境影響聲明書稿本

加州公共事業委員會 (CPUC) 和美國農業部林務局 (林務局) 已為 Southern California Edison (SCE) 的 Tehachapi 再生能源輸送專案 (TRTP) 備案補充環境影響報告 (環境影響聲明書 (SEIR/SEIS) 稿本。SEIR/SEIS 稿本針對聯邦航空總署 (FAA) 所提為 276 個輸電線路 (T/L) 跨距增設鐵線球, 以及在第 5、6、7、8、10 和 11 航段內的 90 個電塔上增設鐵線球的建議, 進行相關影響評估 (備註: CPUC 已暫緩在 8A 航段內的 City of Chino Hills 興建電線輸送線路; 第 8A 航段的地下線路並非 SEIR/SEIS 的討論項目)。此外, SEIR/SEIS 稿本也針對降低位於 Chino Hills 變電所和 Mira Loma 變電所之間第 8 航段內 21 個電塔高度的工程改良進行評估。

專家修正的影響: 專案修正對於 Angeles National Forest (第 6 和 11 航段) 以及 TRTP 專案調整之南區部分 (第 7 和 8 航段) 內的地點特性和視覺品質, 會造成更為重大的不良影響, 同時會導致景觀視覺品質下降。此外, 航空照明會產生新的夜間光源, 影響夜間視線, 這是原本不存在但因專案修正所造成的一項重大且無法避免的影響。不過, 此建議修正案可讓飛行員更清楚看見危險結構物 (電塔和輸電線路跨距), 因而增加公共安全性, 而且此修正案是符合 FAA 建議所必需。

SEIR/SEIS 稿本公開審閱: 如欲審閱 SEIR/SEIS 稿本, 可以在 幾個區域圖書館和其他社區地點 (請參閱專案網站提供的文件資料清單) 索取紙本, 專案網站也提供電子版本, 網址:

http://ftp.cpuc.ca.gov/gopher-data/environment/tehachapi_renewables/TRTP.htm

如閣下 SEIR/SEIS 稿本的光碟片, 可寄送電子郵件至 trpsupport-eis@aspenneg.com 索取。

SEIR/SEIS 稿本公開審閱時間自 2013 年 4 月 20 日起至 2013 年 6 月 3 日止。針對 SEIR/SEIS 稿本的書面意見最遲應於 2013 年 6 月 3 日前寄 (以郵遞為準) 或以電子郵件傳送。請務必註明您的姓名和地址。針對 SEIR/SEIS 稿本的意見應以文件所包含的主題為限。確定版 SEIR/SEIS 會就針對 SEIR/SEIS 稿本所提出的所有實質意見給予答覆。

本公署所收到的回應意見, 包括意見表達者的姓名和地址, 都會納入此項審閱的公開記錄。匿名提交的意見仍會受理並納入考量, 但若是匿名提供意見, 相關機關就無法提供後續環境文件給意見表達者。

關於 SEIR/SEIS 稿本的書面意見應寄至: John Boccio/Lorraine Gerchias, CPUC/USDA Forest Service, c/o Aspen Environmental Group, 5020 Chesetbro Road, Suite 200, Agoura Hills, CA 91301, 或以電子郵件傳送至: trpsupport-eis@aspenneg.com。

如有關於本專案的疑問, 請聯絡: CPUC TRTP 專案經理 John Boccio, 電話 (415) 703-2641, 或林務局 TRTP 專案經理 Lorraine Gerchias, 電話 (626) 574-5281。
